___ has been certified by the Texas Department of Insurance as an Independent Review Organization. The Texas Worker's Compensation Commission has assigned this case to ___ for independent review in accordance with TWCC Rule 133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, all relevant medical records and documentation utilized to make the adverse determination, along with any documentation and written information submitted, was reviewed.

The independent review was performed by a matched peer with the treating doctor. This case was reviewed by a licensed Medical Doctor with a specialty and board certification in Radiology. The ___ health care professional has signed a certification statement stating that no known conflicts of interest exist between the reviewer and any of the treating doctors or providers or any of the doctors or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to the dispute.

CLINICAL HISTORY

___ is a 50-year-old woman who sustained an injury in a work-related accident on ___. Information prior to ___ office H&P on 10/9/00 was not provided for review. She apparently sustained a re-injury on ___ (according to the above note) and has been having persistent neck, arm and elbow pain, also occasionally involving legs as well. The most recent office (3/17/03) describes more left arm and leg complaints than right side involvement. Apparently she has had prior imaging studies and surgery, though details were not provided to the reviewer.

REQUESTED SERVICE

A repeat cervical MRI is requested for this patient.

DECISION

The reviewer agrees with the prior adverse determination.

BASIS FOR THE DECISION

There is no documentation in the record of any physical examination or any physical findings from the initial H & P of 10/9/00 to the present. The patient's complaints vary from office visit to visit, but there is never any documentation that there has been a change in her physical findings. Since surgery has been performed in the past, additional imaging evaluation at this time, without a change in physical findings, would not result in any change of therapy.

____ has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. ____ has made no determinations regarding benefits available under the injured employee's policy.

As an officer of ____, dba ____, I certify that there is no known conflict between the reviewer, ____ and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

____ is forwarding by mail and, in the case of time sensitive matters by facsimile, a copy of this finding to the treating doctor, payor and/or URA, patient and the TWCC.

Sincerely,
